Agricultural

Food/Pharma

ABB INSTRUMENTATION

Flow, temperature, pressure & analytical instrumentation & rotameters for municipal water & wastewater applications

CONTINENTAL DISC CORPORATION

Overpressure safety devices: rupture discs, holders, burst-disc indicators & relief panels for industrial, municipal & OEM

GROTH CORPORATION

Tank safety & biogas products: flame arresters, PVRV's, vents, blanket gas regulators, waste gas burners & gas handling equip't

PULSAR PROCESS MEASUREMENT

Ultrasonic level & flow measurement & control; sonar sludge depth & blanket level measurement

SEAMETRICS

Liquid flow measurement: insertion, clamp-on & inline magnetic, turbine, paddle, ultrasonic, AC/DC, solar & battery power, well level

THERMAL INSTRUMENT COMPANY

High-accuracy inline & insertion-style thermal mass flow measurement & switches for wide variety of gases & liquids

LIQUID CONTROLS

High-accuracy custody transfer flowmeters: positive displacement, coriolis, turbine, magnetic & batching

KOBOLD

Flow, temperature, pressure & level indicators, transmitters, switches & gauges

MIL-RAM

Toxic & combustible area gas monitoring, flame detection, calibration gases, multi-channel controllers, wireless transmitters & receivers

GREYLINE INSTRUMENTS

Ultrasonic instrumentation: fixed & portable clamp-on transit time & doppler flow, open channel & area velocity flow, level & differential

AQUAMETRIX

Single-point, multi-parameter & 4-20 two-wire analytical measurement & control: pH, ORP, conductivity, DO, turbidity & free chlorine

CHEMTRAC

Process monitoring & control instruments for water, wastewater and other industrial processes

Agricultural

Food/Pharma

AMETEK/US GAUGE

Pressure & level transducers, transmitters, controllers, gauges & seals, submersible & down-hole well level transducers

PRECISION DIGITAL

Digital meters & controllers: flow, temperature, pressure & level, panel-mount & field enclosures

ELITE

Valves & actuators: knife gate, butterfly, plug, ball & check valves, electric & pneumatic actuators

INDUSTRIAL CONTROL LINKS

Integrated SCADA solutions for monitoring, alarming, data collection & control with no hidden costs for software

GLOBAL TECHNOLOGY SYSTEMS/SWR

Flow, density, moisture & dust measurement of solids & bulks plus broken bag detection

PMC ENGINEERING

Smart electronic pressure, level & vacuum transmitters for harsh & industrial environments, including food, beverage & sanitary

GSI

Mechanical tank gauging with optional transmitters & switches; electronic level & mass measurement tank gauging

DWYER

Instrumentation superstore: gauges, switches, transmitters, valves & more for flow, pressure, level, temperature & more

TEW&C/THERMO-ELECTRIC

Thermocouples & RTD's, thermocouple & instrumentation wire: single-pair & multi-pair; full range of insulation & sheath materials

REOTEMP

Dial thermometers, thermowells, pressure gauges & accessories, diaphragm seals, thermocouples & RTD's

ICON PROCESS CONTROLS

Corrosion-resistant thermoplastic flow, pressure, level & temperature instrumentation

FAURE HERMAN

Helical, turbine & ultrasonic custody transfer flowmeters
